SAP CO Consultant – S/4HANA

Description

We are seeking a skilled SAP CO Functional Consultant with expertise in S/4HANA to lead and ensure the seamless end-to-end integration of the S/4HANA Finance solution. You will play a key role in the implementation and deployment of the Finance project, acting as the owner of the solution and coordinating closely with project teams.

Responsibilities

- Participate in business workshops to help design the future Core Model, ensuring full integration of the S/4HANA Finance solution.
- Adjust and configure CO modules based on workshop outcomes and evolving business needs.
- Act as a liaison between stakeholders and development teams to ensure clear communication and alignment.
- Prepare detailed functional specifications in English.
- Provide support during MVP (Minimum Viable Product) launch phases.
- Collaborate with IT teams to identify post-MVP releases and define implementation strategies that minimize disruptions to current systems.
- Contribute to integration, testing, and migration planning.
- Support Product Owners by offering insights and guidance rooted in digital best practices and industry standards.
- Recommend improvements and assist in prioritizing the Product Backlog based on business value.
- Ensure Product Backlog transparency, clarity, and accessibility for all stakeholders.
- Break down features into user stories that can be delivered within a sprint, including defining acceptance criteria.
- Help clarify user stories and support technical and defect stories as needed.
- Participate in Agile ceremonies and actively engage with the Scrum team.

Qualifications

Required Skills & Competencies:

- Strong business analysis skills and experience modeling business processes in S/4HANA.
- Deep understanding of controlling flows including standard cost, actual cost, and material ledger.
- Expertise in defining and managing CO-related interfaces.
- Solid knowledge of integrated business processes: S2P, R2R, O2C, and PP.
- Hands-on experience with S/4HANA configuration.
- Familiarity with Agile and Scrum methodologies.
- Excellent interpersonal, communication, and listening skills.
- Ability to work collaboratively in a team and maintain a business-focused approach.
- Comfortable sharing and transferring knowledge across teams and stakeholders.
- Fluent in English (spoken and written).
