ABA SAP S2P

Description

Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions, driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions.

Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

As part of a Finance transformation project, we are looking for a technical-functional SAP MM S/4HANA consultant to ensure end-to-end integration consistency of the solution. The service involves close collaboration with internal IT teams to support the implementation and deployment phases of the S/4HANA Finance project.

The objective is to take ownership of the solution and manage its implementation in coordination with IS/IT teams and the relevant project stakeholders.

Responsibilities

- Assist business workshops during the design of the future Core Design to ensure end-to-end integration of the S/4Hana Finance solution
- Assist in changing the MM configuration according to the business workshops
- Manage the relationship with stakeholders and development teams
- Drafting of detailed specification files (in English)
- MVP startup support
- Identification of post MVP releases with Renault IT teams and the method of implementation to limit operational impacts on existing IS
- Participate in the Master Data and Data Cleansing strategy for the integration
- Participate in the integration, testing and migration strategy
- Enlightens with digital experience the solutions imagined by Product Owner (best practices, consistency with market standards...)
- Gives advice on possible improvements in product backlog
- Supports Product Owner in Product Backlog prioritization
- Proposes prioritization adjustment based on the perceived value

Hiring organization

EasyDo Digital Technologies

Employment Type

Full-time

Date posted

January 13, 2026

- Participates in lifecycle of Product Backlog
- Ensures that the Product Backlog is visible, transparent, and clear to all
- Details each selected feature in the form of a User Story small enough to be implemented within one sprint, including acceptance criteria necessary for the team to understand and develop the user story
- Understands and prioritize Technical Stories suggested by the team as well as Defect Stories
- Clarify any User Story upon request from the Development Team during a Sprint
- Participates and contribute to Agile events with the Team
