

EasyDo Digital Technologies

<https://easydo.co/job/frontend-developer-angular/>

Frontend Developer (Angular)

Description

Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions, driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions. Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

Responsibilities

- Develop robust, performant, and maintainable frontend features using Angular and TypeScript
- Build first functioning prototypes and contribute to their testing and validation
- Participate in discussions around technical solutions and product ideas in design reviews, pair programming, and code review sessions
- Collaborate closely with the Product Owner to ensure the best value/effort ratio in implementations
- Contribute to sprint stories alongside other team members, documenting solutions effectively
- Write automated tests (unit, API, integration, and functional) to ensure code quality in a continuous integration environment
- Promote and apply best practices for code quality, performance, and maintainability, ensuring alignment with the team's technical vision
- Contribute to the adoption and integration of modern frontend practices, including RxJS, Tailwind CSS, and performance optimization techniques
- Ensure comprehensive documentation for all implemented solutions

Qualifications

Essential

- Strong experience with Angular 4+ and TypeScript (5+ years for Senior, 3+ years for Middle)
- Solid understanding and hands-on experience with RxJS and reactive programming patterns
- Proficiency in HTML/CSS and CSS frameworks like Tailwind CSS
- Deep knowledge of OOP and functional programming concepts
- Familiarity with SCSS, Angular CLI, and webpack
- Experience with automated testing frameworks and best practices
- Solid understanding of frontend performance optimization techniques
- Proficiency with Git source control
- Familiarity with Docker, Kubernetes, and Google Cloud Platform for deployment and environment management

Desirable

- Familiarity with Generative AI tools (e.g., GitHub Copilot, GitLab Duo)
- Experience working in Agile development teams (3+ years for Middle, 5+ years for Senior)
- Great interpersonal and communication skills, able to work collaboratively within a team
- Fluent in English. French is a plus
