IT System Engineer (Workstation)

Description
Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions , driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions.

Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

Context: As part of the 'Workstation' Squad in the Production IT department, you will bring your expertise in workstation management to ensure operational stability, security, and performance.

Responsibilities

- Daily management of tasks related to the workstation environment.
- Ensure the operating system and applications are patched and aligned with group security policies.
- Act as Level 3 support for workstation-related system malfunctions.
- Analyze and validate software configurations on workstations.
- Define technical solutions aligned with security standards and internal validation processes to meet business needs.
- Write and maintain technical documentation for installed software and infrastructure.
- Monitor vulnerabilities on production equipment and participate in remediation.

Qualifications

- Bachelor's degree (or higher) in IT or related field.
- **5+ years of experience** in Windows client administration.
- Windows 10 systems
- SCCM (patching, software deployment, application evolution)
- Security frameworks: **NIST, ISO 27001, PCI DSS**
- Virtualization tools: **VMware, Citrix**
- **Scripting**: PowerShell, VBS
- Networking: **TCP/IP**, Microsoft protocols, SMTP, HTTPS
- ITIL best practices for **change and incident management**
- Microsoft Office tools (Word, Excel, PowerPoint)
- Endpoint security solutions (e.g., **Trellix**)
- Monitoring tools like **Nexthink**
- **Office 365** / **Azure AD**
- Agile methods (**Scrum** / **Kanban**)
- **Microsoft certifications** are a plus
- **Fluent in French** (written and spoken)
- **Good working knowledge of English**, especially technical English (able to understand and participate in technical discussions)

Job Benefits
We offer

- Competitive salary and the opportunity to have a meaningful job where you can make a difference
- The chance to continuously evolve as a professional
- Medical insurance & Meal tickets. Variety of training opportunities
