Linux System Administrator (Integration Focus) with French

Description

Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions, driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions.

Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

Responsibilities

We are looking for a **Linux System Administrator** with integration experience to manage, maintain, and support our infrastructure. The role focuses primarily on Linux environments, with occasional involvement in Windows systems.

- Administer and maintain Linux systems (primarily Red Hat Enterprise Linux and Rocky Linux)
- Develop and maintain Bash scripts for automation and system tasks
- Configure and manage services using system (service creation, troubleshooting, optimization)
- Administer and maintain web servers such as NGINX
- Handle SSL certificate management (installation, renewal, troubleshooting)
- Perform system integration tasks across internal and external platforms
- Ensure servers are up to date with patches and security standards
- Follow and contribute to existing operational procedures and documentation
- Use ticketing tools like ServiceNow and Jira for incident and request management
- Participate in on-call rotation (approximately 1 week every 2 months)
- Provide basic administration and support for Windows systems (PowerShell usage on a limited basis)
- Manage virtual environments using VMware
- Work with physical servers and hardware management tools such as HPE iLO

Qualifications

- Strong experience with Linux system administration
- Solid Bash scripting skills
- Experience with system/service management using system
- Knowledge of web server administration (NGINX preferred)
- Experience with SSL certificates and best security practices
- Familiarity with ITSM/ticketing systems (ServiceNow, Jira)
- Basic Windows administration (mid-level) and PowerShell knowledge
- Experience with virtualization (VMware)
- Understanding of server hardware management (HP iLO or similar)
- Experience in system integration environments
- **French – mandatory**
- English – professional working proficiency
