QA Engineer / Functional QA (API & Web Services) – French Speaking

Hiring organization
EasyDo Digital Technologies

Employment Type
Full-time

Date posted
February 26, 2026

Description

Nous sommes un groupe spécialisé dans la gestion de services et solutions IT digitales, porté par les personnes,
l'innovation, l'agilité et une expertise approfondie du secteur. Nous collaborons avec les plus grandes institutions
privées et publiques pour fournir des services et solutions IT de qualité.
En tant que groupe entrepreneurial de services digitaux à taille humaine, nous sommes composés d'experts
passionnés et dirigés par des leaders expérimentés en IT et transformation digitale.

We are hiring **French-speaking QA Engineers** to join major enterprise, banking, and insurance projects across Europe.

If you have strong experience in **functional testing, API testing, and Agile environments**, and enjoy working in structured, high-quality delivery contexts — this role is for you.

Responsibilities

Tech & Environment:

- API & Web Services Testing
- Postman
- SQL
- Jira & XRAY
- Test Strategy & Test Plans
- Functional & End-to-End Testing
- Agile / V-cycle

Qualifications

What We're Looking For:

- 3–5+ years of experience in QA / Functional Testing
- Strong experience in API & Web Services testing
- Experience in banking or insurance projects (preferred)
- Fluent French (mandatory – daily communication)
- English for documentation

Job Benefits

Why Join?

- Long-term international projects
- Exposure to regulated industries (Banking, Insurance)
- Career growth & training opportunities
- Stable and professional environment
- Competitive compensation
