EasyDo Digital Technologies

SAP Security Consulting

Description
Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions, driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions.

Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

The SAP Security Consulting service ensures the integrity and security of the SAP landscape, supporting organizations in managing user access, roles, and authorizations while maintaining compliance with internal and external security standards. This service collaborates with various teams to implement, monitor, and optimize SAP security configurations, safeguarding business-critical applications.

Responsibilities

- **SAP Security Implementation & Administration:** Configure and manage security roles and authorizations across SAP systems, ensuring appropriate access levels based on job functions.

- **Access Control Management:** Implement and monitor user access controls, ensuring segregation of duties (SoD) and compliance with regulatory and audit requirements.

- **Security Audits & Risk Assessment:** Conduct regular audits and risk assessments to identify vulnerabilities and recommend mitigation measures.

- **Collaboration & Support:** Provide support to business teams and BASIS administrators for security-related issues and optimization.

- **Authorization Concept Design:** Develop and maintain SAP authorization concepts, including role design and user activity monitoring.

- **System Monitoring & Troubleshooting:** Monitor the SAP security environment for potential threats and resolve issues related to access or security breaches.

- **Documentation & Reporting:** Maintain clear documentation of security configurations, changes, and audit logs, and deliver regular compliance reports.

  - **SAP Security Expertise:** Strong knowledge of SAP security concepts (roles, authorizations, profile management: PFCG, SU01, SU10).
  - **Risk Management & Compliance:** Understanding of GDPR, SOX, and Segregation of Duties (SoD) analysis.

Hiring organization
EasyDo Digital Technologies
