Senior Test Analyst with French

Hiring organization
EasyDo Digital Technologies

Employment Type
Full-time

Date posted
November 26, 2025

Description

Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions , driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions.Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

We are looking for an experienced French-speaking Test Analyst to join our fast-growing team. You will play a critical role in ensuring the quality and reliability of our software applications. You will primarily focus on end-to-end manual testing tasks

Responsibilities

Contribute to the product testing strategy

· Contribute to the definition of acceptance criteria for Epics/Features and write associated acceptance scenarios

· Contribute to test progress reporting and anomaly tracking and produce test evidence

· Provide report for test progress and closure

· Contribute to user acceptance testing

· Participate in Agile ceremonies

· Gain an understanding of the business context and technical environment

· Design, write, and execute the test plans for an Epic/Feature

· Obtain or create test data sets

· Perform end to end testing of the Epics/Features developed within the Tribe

· Verify that the features or updates meet all functional requirements and specifications.

· Make sure that the features or updates are designed in a way that allows for effective testing

· Set up and maintain the test repository: test plan, test cases, test data

· Adhere to best practices and standards in testing to ensure thorough and reliable outcomes

Qualifications
Strong experience in manual end to end testing, including test strategy, test planning, test case creation, test execution, defect management and test reporting

· Familiarity with test management tools and defect tracking systems

· Ability to learn and understand complex business flows and application functionality

· French advanced level written and spoken

· The ability to research on their own and gather information from different stakeholders and developers

· Good planning, organization and time management skills

· Excellent written and verbal communication skills, the ability to communicate efficient with the team (business, developers, POs)

· High level of motivation and autonomy

· Excellent problem-solving skills

· Knowledge of Agile methodologies

Nice to ha

· ISTQB certification would be a plus

· Experience in banking projects

Job Benefits
We offer:

- Competitive salary and the opportunity to have a meaningful job where you can make a difference
- The chance to continuously evolve as a professional
- Medical insurance & Meal tickets.
