Test Specialist (French speaker)

Hiring organization
EasyDo Digital Technologies

Employment Type
Full-time

Date posted
February 17, 2026

Description

Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions , driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions.

Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

Context / Mission:

We are seeking an experienced French-speaking Test Specialist to join our team. In this role, you will be responsible for validating applications and IT systems to ensure quality, reliability, and alignment with business requirements.

Responsibilities

- Conduct functional and technical testing to identify defects and ensure application quality
- Define and implement testing strategies (manual, automated, API)
- Design, execute, and maintain test plans, test cases, test scripts, and test data
- Perform and maintain non-regression testing
- Track, report, and follow up on defects
- Ensure the quality and completeness of user stories and acceptance criteria
- Collaborate with development and production teams to analyze and resolve issues
- Prepare and maintain test documentation and reports
- Ensure compliance with testing procedures and standards
- Accompany the “Partner” tests

- Actively participate in Agile ceremonies and contribute to user story refinement
- Share knowledge and best practices within the testing team

Qualifications

- Minimum 4 years of experience in software testing
- Strong understanding of Agile testing methodologies
- Experience with tools such as Jira, Octane, and Postman/Bruno
- Knowledge of Java (or similar other programming languages)
- Familiarity with testing standards (e.g., ISTQB)
- Strong teamwork and communication skills
- Fluent in French (spoken and written)
- Experience in both functional and technical testing is preffered
- Familiarity with monitoring and log analysis tools (pre-diagnostic analysis)
- Software testing in banking projects (or financial services) is considered a plus

Job Benefits

- Competitive salary and the opportunity to have a meaningful job where you can make a difference
- The chance to continuously evolve as a professional
- Medical insurance & Meal tickets.
