MLOps Specialist

Description

Empowering our Clients with People-Driven Digital Innovation Across Europe

We are a Group managing digital IT services and solutions, driven by people, innovation, agility, and deep industry insight. We are working with the largest private and public institutions to deliver IT services and solutions.

Being an entrepreneurial digital services group with a Human-Sized Tech Company, we are built by passionate experts and led by seasoned leaders in IT and digital transformation.

Context: We are seeking a highly motivated ML Ops Specialist to support the operationalization of machine learning workflows. The ideal candidate will work closely with cross-functional teams to help build, deploy, and maintain scalable ML systems in a variety of environments.

Responsibilities

- o Collaborate with stakeholders to support the ML lifecycle from development to production.
- o Assist in the deployment, monitoring, and maintenance of ML models.
- o Implement tools and processes to improve workflow efficiency and reliability.
- o Ensure reproducibility, scalability, and automation of ML pipelines.
- o Support model versioning, testing, and performance tracking.
- o Contribute to the management of infrastructure and environments related to ML operations.

Qualifications

- o General experience with machine learning concepts and related technologies.
- o Familiarity with common ML tools, frameworks, and deployment techniques.
- o Understanding of software engineering and DevOps principles.
- o Ability to work in collaborative environments with various teams.
- o Strong problem-solving and communication skills.

Job Benefits

We offer

- Competitive salary and the opportunity to have a meaningful job where you can make a difference
- The chance to continuously evolve as a professional
